

Varietal Characteristics*:

- **Growing Zone:** The winter wheat growing region of the Canadian prairies.
- **Yield:** Higher average yield than the checks. Well adapted to the rust area of eastern SK and MB.
- **Maturity:** Early maturity, similar to check CDC Osprey.
- **Height:** Short, 12 cm shorter than check, 6 cm taller than CDC Falcon.
- **Lodging:** Lodging resistance is better than check.
- **Quality:** Test weight similar to check and CDC Falcon. Protein similar to CDC Falcon.
- **Disease Resistance:** Excellent leaf rust resistance and good stem rust resistance; Better than checks for leaf spotting and powdery mildew; Intermediate to stripe rust; S to common bunt; Similar to other winter wheat cultivars for fusarium head blight.

Seed Manitoba - 2011
