

Varietal Characteristics:

- **Growing Zone:** Best suited to all wheat-growing zones.
- **Yield:** Very good potential, especially in the brown/dark brown soil zones of SK/AB and southwest corner of MB.
- **Maturity:** 100 days, similar to check AC Barrie.
- **Height:** Medium.
- **Lodging:** Good resistance, similar to check. Some lodging under high moisture conditions.
- **Quality:** Protein content superior to Superb. Grain tougher to thresh out of head versus check.
- **Disease Resistance:** R–MR to stem rust, loose smut and bunt. I to FHB and leaf rust.

Seed Manitoba - 2010

Variety	Yield % AC Barrie	Maturity (days)	% Protein	Height	Resistance to
